### **Willis Awarded Contract for Coldwater Loft Redevelopment**

Willis Building Co, Inc. has received a new contract for a green renovation project in Coldwater, Michigan, which is about 1 ½ hours southwest of Ann Arbor. The project includes the redevelopment of the former Kerr Hardware building and its three adjoining buildings, originally constructed in 1887. Willis is contracted to convert this facility's 24,000 sq. ft. into urban-style lofts, which will be used either as commercial or residential units. Willis is striving to make this their second LEED certified project, and will include the implementation and installation of a geothermal HVAC system and a green roof. Willis is excited to be involved in this innovative project.

Willis Building Company, Inc. is a third generation construction management company specializing in commercial, industrial, and green building. Willis was founded in 1966 and has been headquartered in Saline, MI since 1982. For more information about the company, visit their website at [www.willisbuilding.com](http://www.willisbuilding.com) or contact Ryan Stoianowski at (734)429-1028 or [RStoianowski@willisbuilding.com](mailto:RStoianowski@willisbuilding.com).
